Meeting Overview:

The Chairperson, Mr. Vineet Mohan Gupta, welcomed all members to the 17th Board of Management meeting. He emphasized on the importance of the agenda and provided an overview of the topics to be discussed.

Discussion and Decisions

1. Approval of Previous Meeting Minutes

The minutes of the previous meeting were reviewed and approved unanimously without amendments.

2. Accreditation and Compliance

- The institution reaffirmed its commitment to maintaining accreditation standards with NAAC and other regulatory bodies.
- Discussions focused on enhancing compliance with AICTE and university guidelines to ensure alignment with updated norms.
- Reviewed initiatives to improve the institution's NIRF ranking by emphasizing research output, better student outcomes, advanced infrastructure, and stronger stakeholder engagement.

3. Academic Matters

- Satisfactory outcomes were reported across most academic disciplines, with consistent academic growth observed among students.
- Areas requiring improvement were identified, and actionable strategies were formulated to address gaps.
- Successfully launched new courses aligned with AICTE and BPUT guidelines.

Radhakrishna Institute of Technology &

Engineering, Bhubaneswar

(BPUT affiliated, AICTE approved & NAAC accredited)

- Infrastructure to be enhanced, and faculty underwent specialized training to support the delivery of these courses effectively.
- Reviewed vacancies in teaching and research roles.
- Emphasized the recruitment of highly qualified professionals to strengthen academic standards and support new course offerings.

4. Laboratory Upgradation:

Discussions emphasized the need for enhanced laboratory infrastructure to support academic and research activities. Key initiatives included:

- Modernization of existing laboratories with updated equipment and tools.
- Introduction of virtual labs as a value added course to enable remote experimentation and learning.
- Expansion of research facilities to accommodate cutting-edge studies.
- Implementation of enhanced safety measures and compliance protocols.
- Creation of dedicated spaces for multidisciplinary projects and innovation.

5. Students Placement & Internships:

- Achieved a good placement rate, with students securing positions in reputed organizations such as QSpiders, ALGO PAGE, Bodhan Group, and others.
- Pre-placement training programs were prioritized, focusing on communication, aptitude, reasoning, and technical skills.
- Strengthened industry connections to secure internships that provide practical experience in students' fields of study.

6. Research & Development Initiatives:

- Partnerships were established with leading industries and reputed institutions.
- Centers of Excellence were planned to create in strategic areas to drive innovation and promote interdisciplinary research.
- Proposed grants were explored for patent filings, scholarships for students actively involved in research, and awards for faculty achievements.

7. Infrastructure and Campus Development:

- Ongoing projects were planned for equipping classrooms with advanced audio-visual teaching tools and integrating e-learning platforms for seamless learning experiences.
- Expanded digital library resources, including access to global research databases.
- Discussion was made for introducing modernized laboratories with industry-standard equipment to support advanced academic and research activities.

Conclusion:

No additional points were raised by the members. The Chairperson, Mr. Vineet Mohan Gupta, thanked all members for their active participation. The meeting was adjourned at 5:00 PM, with the next meeting tentatively scheduled for 9th March 2026.
