Report on Career counseling talk on Machine Learning and data analytics ” by Prof. Jui Pattnayak

Topic name	Organised by	Date and Time
Machine learning and data analytics	Department of Comp. Sci. Engineering.	June 13, 2019, 12.30PM

Faculty Coordinator

SN	Name	Designation
1	Prof. Sanjay Giri	Asst.Prof.

Description:

On 13th June, 2019 Prof Jui Pattnaik, Associate Professor, DRIEM, Cuttack delivered a guest lecture to our students.

Machine learning is a method of data analysis that automates analytical model building. It is a branch of artificial intelligence based on the idea that systems can learn from data, identify patterns and make decisions with minimal human intervention. Machine learning analytics is an entirely different process. Machine learning automates the entire data analysis workflow to provide deeper, faster, and more comprehensive insights. The entire session was an interactive session. Students were asking questions which were answered by the Professor. Students were educated in the career prospect of the topic “Machine learning and data analytics”

Background:

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect. There are many types of intellectual property, and some countries recognize more than others. The best-known types are patents, copyrights, trademarks, and trade secrets. The modern concept of intellectual property developed in England in the 17th and 18th centuries. The term "intellectual property" began to be used in the 19th century, though it was not until the late 20th century that intellectual property became commonplace in most of the world's legal systems.

Supporters of intellectual property laws often describe their main purpose as encouraging the creation of a wide variety of intellectual goods. To achieve this, the law gives people and businesses property rights to certain information and intellectual goods they create, usually for a limited period of time. Supporters argue that because IP laws allow people to protect their original ideas and prevent unauthorized copying, creators derive greater individual economic benefit from the information and intellectual goods they create, and thus have more economic incentives to create them in the first place. Advocates of IP believe that these economic incentives and legal protections stimulate innovation and contribute to technological progress of certain kinds.

The intangible nature of intellectual property presents difficulties when compared with traditional property like land or goods. Unlike traditional property, intellectual property is "indivisible", since an unlimited number of people can in theory "consume" an intellectual good without its being depleted. Additionally, investments in intellectual goods suffer from appropriation problems:

From,

Mr. Nityananda Pradhan

Advocate, Khordha

Dear Principal,

Radhakrishna Institute of Technology and Engineering

IDCO Plot No-1, Khordha Industrial Estate, Bhubaneswar

I am writing to express my sincerest appreciation to you and your team for inviting me to speak about **"Intellectual Property Rights in India"** to your students on **02.08.2019**. It was an honour and privilege to be given the opportunity to share my experience and knowledge with the students of your esteemed college.

The experience of speaking to your students was truly rewarding for me. The level of engagement and interaction from the students was outstanding, and I greatly enjoyed the insightful questions and comments that were raised during the session. The enthusiasm and interest displayed by the students are a testament to the quality of education provided by your college.

I commend your college for its commitment to providing a well-rounded education to its students. The opportunity to speak at your college allowed me to contribute to this mission and promote education, particularly in the field of law. I'm sure the students have benefitted greatly from the discussion, and I hope that the information I shared motivated them to achieve their goals.

Once again, thank you for giving me this opportunity to speak to your students. It was a memorable experience for me, and I'm glad I could contribute to your stellar program. I look forward to collaborating with you and the college in the future.

Sincerely,
Nityananda Pradhan

Date: 4.09.2019

NOTICE

Guest Lecture on “Understanding in Cyber Security Perspective using Machine Learning Tools”

This is to inform all staffs and students that, **Prof. (Dr.) Jui Pattnayak, Associate Professor, Aryan Institute of Engineering and Technology**, will deliver a Guest Lecture on “Understanding in Cyber Security Perspective using Machine Learning Tools” as per the following details. The Students of 1st, 2nd, 3rd and 4th Year B.Tech are required to attend the talk without fail.

Resource Person: Prof. (Dr.) Jui Pattnayak, Associate Professor, Aryan Institute of Engineering and Technology, BBSR

Date : 06.09.2019
Timing : 1:00 PM onwards
Venue : Seminar Hall

4/09/2019
Principal

Copy to : HODs, CAOs, SWO and All notice boards and Staffs via whats app.

Report on Invited Talk/Career counseling talk on Understanding Cyber-Security perspective using machine learning tools” by Prof. Jui Pattnayak

Topic name	Organised by	Date and Time
Understanding in Cyber-Security Perspective using Machine Learning Tools	Department of Comp. Sci. Engineering.	September 06, 2019, 12.30 PM

Faculty Coordinator

SN	Name	Designation
1	Prof. Sanjay Giri	Asst.Prof.

Description:

On 6th September, 2019, Prof. Jui Pattnayak, Associate Professor, delivered a guest lecture on “understanding in Cyber-Security Perspective using Machine Learning Tools.

Cyber security is the practice of defending computers, servers, mobile devices, electronic systems, networks, and data from malicious attacks. The uptick in cyber attacks has made machine learning in cybersecurity a must-have for many companies. Although cyber attacks continue to grow in number and complexity, machine learning is evolving to address new threats. Machine learning’s ability to analyze large amounts of data and spot patterns makes it ideal for detecting attacks in their earliest stages, exposing network vulnerabilities and anticipating when and how future cyber attacks will occur. A subset of artificial intelligence, machine learning uses algorithms born of previous datasets and statistical analysis to make assumptions about a computer’s behavior. The computer can then adjust its actions, even performing functions it wasn’t programmed to do. These abilities have made machine learning a

crucial cybersecurity asset. The entire session was an interactive session. Students were asking questions which were answered by the Professor. Students were educated in the career prospect of the topic "Understanding in Cyber-Security Perspective using Machine Learning Tools"

Guest Lecture on "Cyber Security and its live applications"

This is to inform all staffs and students that, **Prof. (Dr.) Jui Pattnayak, Associate Professor, Aryan Institute of Engineering and Technology, Bhubaneswar** will deliver a Guest Lecture on "**Cyber Security and its live applications**" as per the following details. The Students of 1st, 2nd, 3rd and 4th Year B.Tech are required to attend the talk without fail.

Resource Person: Prof. (Dr.) Jui Pattnayak, Associate Professor, Aryan Institute of Engineering and Technology, BBSR

Date : 25.09.2019

Timing : 1:00 PM onwards

Venue : Seminar Hall

24/09/2019
Principal

Copy to : HODs, CAOs, SWO and All notice boards and Staffs via whats app.

Report on Career counseling talk on Cyber-Security & its live application " by Prof. Jui Pattnayak

Topic name	Organised by	Date and Time
Cyber-Security & its live application	Department of Comp. Science Engineering.	September 25, 2019

Faculty Coordinator

SN	Name	Designation
1	Prof. Sanjay Giri	Asst.Prof.

Description:

On 25th September, 2019, Prof. Jui Pattnayak, Associate Professor, delivered a guest lecture on "Cyber-Security & its live application".

Cyber security is the practice of defending computers, servers, mobile devices, electronic systems, networks, and data from malicious attacks. It's also known as information technology security or electronic information security. The main purpose of Cybersecurity is to protect all the users on the Internet from infected files, malware, and digital attacks which lead the users to access private sensitive information of users, extort ransom from users by using their private data or even disrupting important critical infrastructure like shutting down power supplies and military infrastructure. Cybersecurity helps to solve pre-built vulnerabilities in applications and helps them to remain stable throughout. More and more devices are getting connected to the Internet, hence it is more and more important to secure all the devices over the Internet to protect them all against unauthorized access. The entire session was an interactive session. Students were asking questions which were answered by the Professor. Students were educated in the career prospect of the topic "Cyber-Security & its live application".

Guest Lecture Report
On

“Design, Analysis and Application of
Algorithms”

Held on: 18th Dec 2019

Organized by:
**RITE Wizard and Department of Computer Science and
Engineering, RITE, BHUBANESWAR.**

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

Index:

- Background
- Notice
- Brochure of the Event
- Schedule of the Event

- List of Participation
- Pictures of the Event

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

Background:

A finite set of instruction that specifies a sequence of operation is to be carried out in order to solve a specific problem or class of problems is called an Algorithm.

As the speed of processor increases, performance is frequently said to be less central than other software quality characteristics (e.g. security, extensibility, reusability etc.). However, large problem sizes are commonplace in the area of computational science, which makes performance a very important factor. This is because longer computation time, to name a few mean slower results, less through research and higher cost of computation (if buying CPU Hours from an external party). The study of Algorithm, therefore, gives us a language to express performance as a function of problem size.

Characteristics:

- **Input:** It should externally supply zero or more quantities.
- **Output:** It results in at least one quantity.
- **Definiteness:** Each instruction should be clear and unambiguous.
- **Finiteness:** An algorithm should terminate after executing a finite number of steps.
- **Effectiveness:** Every instruction should be fundamental to be carried out, in principle, by a person using only pen and paper.
- **Feasible:** It must be feasible enough to produce each instruction.
- **Flexibility:** It must be flexible enough to carry out desired changes with no efforts.

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

Radhakrishna Institute of Technology & Engineering, Bhubaneswar

(BPUT affiliated, AICTE approved & NAAC accredited)

- **Efficient:** The term efficiency is measured in terms of time and space required by an algorithm to implement. Thus, an algorithm must ensure that it takes little time and less memory space meeting the acceptable limit of development time.
- **Independent:** An algorithm must be language independent, which means that it should mainly focus on the input and the procedure required to derive the output instead of depending upon the language.

Advantages:

- **Effective Communication:** Since it is written in a natural language like English, it becomes easy to understand the step-by-step delineation of a solution to any particular problem.
- **Easy Debugging:** A well-designed algorithm facilitates easy debugging to detect the logical errors that occurred inside the program.
- **Easy and Efficient Coding:** An algorithm is nothing but a blueprint of a program that helps develop a program.
- **Independent of Programming Language:** Since it is a language-independent, it can be easily coded by incorporating any high-level language.

Disadvantages:

- Developing algorithms for complex problems would be time-consuming and difficult to understand.
- It is a challenging task to understand complex logic through algorithms.

Venue: Seminar Hall

Background:

Copyrights protect a creator's work from unauthorized duplication or use. Through the Copyright Act Public Performance, nobody can copy, imitate, or produce another work if work gets protected by Copyright Registration. This article explains the importance of copyright.

Copyright is a collection of rights available to the creator of an original literary, dramatic, artistic, or musical work who has spent his time and effort in creating it, to protect them against theft and unauthorized uses. Such rights include the right to reproduce, to prepare derivative works, to distribute copies, and perform and display the work publicly. The provisions related to copyright in India are given under the Copyright Act, 1957. The main aim of copyright is to encourage and provide an incentive to the authors or creators to make or create new works. These works are available for the public to enjoy according to the will of the author or owner of the copyright. The copyright of any work provides benefits both to the author or creator as well as the public. The author receives economic rewards for creating such work and the public gets the work in the form of literature, drama, art, or music. Through the registration of a copyright, the author or creator can claim over his work to protect their work from theft or piracy. So, copyright registration provides protection from theft and also rewards the author for his work.

From,

Mr. Nityananda Pradhan

Advocate, Khordha

Dear Principal,

Radhakrishna Institute of Technology and Engineering

IDCO Plot No-1, Khordha Industrial Estate, Bhubaneswar

I am writing to express my sincerest appreciation to you and your team for inviting me to speak about **"Importance of Copyright Law in India"** to your students on **07.01.2020**. It was an honour and privilege to be given the opportunity to share my experience and knowledge with the students of your esteemed college.

The experience of speaking to your students was truly rewarding for me. The level of engagement and interaction from the students was outstanding, and I greatly enjoyed the insightful questions and comments that were raised during the session. The enthusiasm and interest displayed by the students are a testament to the quality of education provided by your college.

I commend your college for its commitment to providing a well-rounded education to its students. The opportunity to speak at your college allowed me to contribute to this mission and promote education, particularly in the field of law. I'm sure the students have benefitted greatly from the discussion, and I hope that the information I shared motivated them to achieve their goals.

Once again, thank you for giving me this opportunity to speak to your students. It was a memorable experience for me, and I'm glad I could contribute to your stellar program. I look forward to collaborating with you and the college in the future.

Sincerely,

Nityananda Pradhan

**ANNEXURE- II
PROGRAMME SCHEDULE**

Date and Day	Session	Subject/ Topic	Faculty
16/01/20 1 st Day	I	Objective and Description of Entrepreneurship. Historical background Indian values vis-a-vis Entrepreneurship and the present scenario	Mr. Hara Prasanna Das Chief Coach, MAK Group of Institutions
	II	Identification of opportunities for Entrepreneurs	Mr. Debabrata Dash VP, MSPL Limited
	III	Communication skill developments	Ms. Rachna Tripathy Arifin Academy, Bhubaneswar
17/01/20 2 nd Day	I	The objective of this session is to sensitize about how to find new ideas and convert them into useful business concepts. It will cover importance of innovative solutions which have changed the way world moves. It will also share about various modes of availing funding for new ideas	Mr. Hara Prasanna Das Chief Coach, MAK Group of Institutions
	II	The objective of this session will be to impart training on how to assess market feasibility of the given idea. It will mainly cover four major areas of marketing known as 4 Ps Product, Price, Place and Promotion. It will teach students how to prepare a strategy on market opportunity	Prof. Sridhar Kumar Dash, Professor, Finance, XIMB, Bhubaneswar
	III	It will mainly cover importance of costing, how to prepare budget, financial projections - for profit and loss account and balance sheet etc.	Prof. Sridhar Kumar Dash, Professor, Finance, XIMB, Bhubaneswar
18/01/20 3 rd Day	I	Discussion with participants for their reactions about the camp	Mr. Hara Prasanna Das Chief Coach, MAK Group of Institutions
	II	Industrial Visit	Ms. Chinmayee Mishra RITE, Bhubaneswar
	III		Prof. Subash Ranjan Kabat
	IV	Vote of thanks

ANNEXURE – V

FEED BACK ANALYSIS OF PARTICIPANT – SUMMARY

Programme Location: **Radhakrishna Institute of Technology and Engineering, Bhubaneswar**

Date: From 16.01.2020 To 18.01.2020

Total No of Participants: **66**

Q.1) From where you got the information about this programme?

- | | |
|-----------------------------|--------------|
| a) Pamphlets / Broacher | 29 Nos.(44%) |
| b) News paper Advertisement | 21 Nos.(32%) |
| c) Posters/ Hand Bills | 16 Nos.(24%) |
| d) Other (Please Specify) | 00 Nos.(00%) |

Q.2) What is your opinion about the duration of Programme?

- | | |
|-------------|--------------|
| a) Short | 06 Nos.(09%) |
| b) Adequate | 50 Nos.(76%) |
| c) Long | 10 Nos.(15%) |

Q.3) Did you find the Programme useful?

- | | |
|-------------------|--------------|
| a) Very much | 59 Nos.(89%) |
| b) To some extent | 07 Nos.(11%) |
| c) Not useful | 00 Nos.(00%) |

Q.4) Did it fulfill your expectations?

- | | |
|-------------------|--------------|
| a) Yes | 65 Nos.(98%) |
| b) To some extent | 01 Nos.(02%) |
| c) No | 00 Nos.(00%) |

Q.5) Planning of the Programme

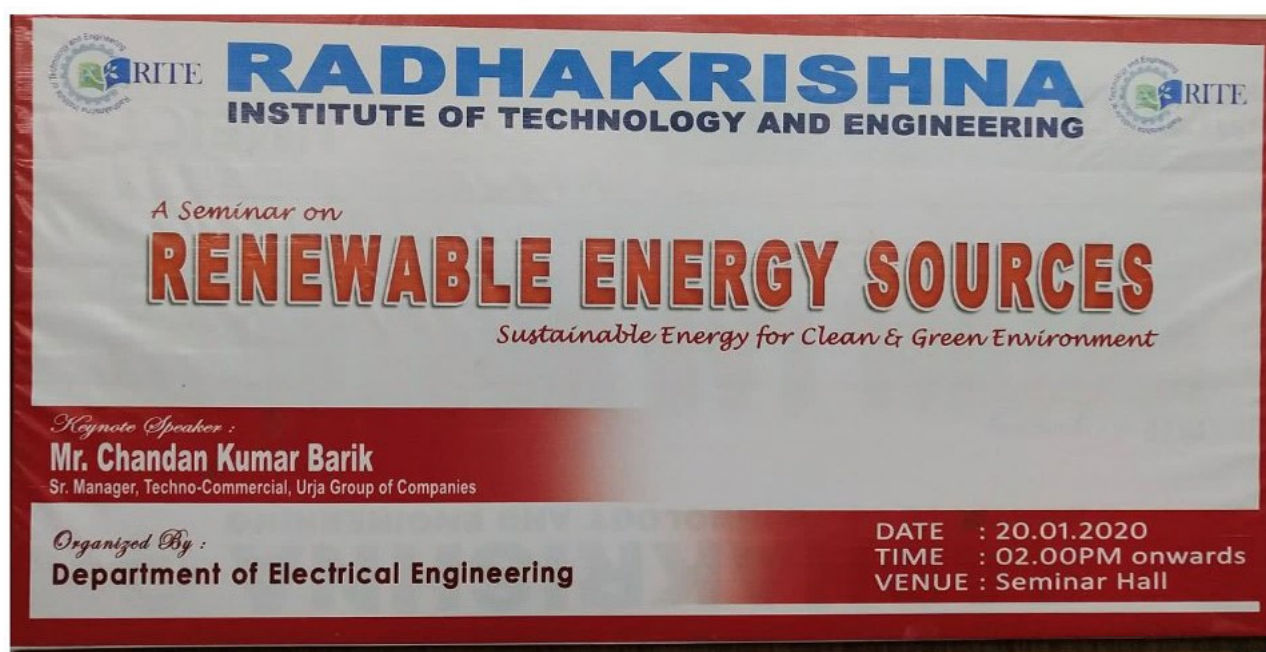

- | | |
|-----------------|--------------|
| a) Excellent | 51 Nos.(77%) |
| b) Very good | 15 Nos.(23%) |
| c) Good | 00 Nos.(00%) |
| d) Satisfactory | 00 Nos.(00%) |
| e) Poor | 00 Nos.(00%) |

Department of Electrical Engineering

Report On

“Renewable Energy Sources: Sustainable Energy for clean and Green Environment”

RADHAKRISHNA
INSTITUTE OF TECHNOLOGY AND ENGINEERING

A Seminar on
RENEWABLE ENERGY SOURCES
Sustainable Energy for Clean & Green Environment

Keynote Speaker :
Mr. Chandan Kumar Barik
Sr. Manager, Techno-Commercial, Urja Group of Companies

Organized By :
Department of Electrical Engineering

DATE : 20.01.2020
TIME : 02.00PM onwards
VENUE : Seminar Hall

EXPERT : Mr. Chandan Kumar Barik
Sr. Manager
Urja Group of Company

Date and Time: 20th JANUARY-2020, 02.00pm

Venue: RITE seminar hall

Duration: 3 hours

Faculty Co-ordinators:

Prof. Subash Ranjan Kabat (Head, EE Department)

Prof. Deepak Kumar Sahoo (Asst Professor, EE Department)

Prof. Chinmayee Mishra (Asst Professor, EE Department)

Prof. Surya Narayan Tripathy (Asst Professor, EE Department)

Total Number of Students: 38

Expert Profile:

Mr. Chandan Kumar Barik

Address: GajapatiNagar

Bhubaneswar

Work Profile: Sr. Manager, Techno Commercial ,

Urja Group of Company

Website: <https://solarmaxo.com/>

TRAINING TEAM

The members of the training team of “**Renewable Energy Sources: Sustainable Energy for clean and Green Environment**” organized by the faculty members of Electrical Engineering department, RITE, Bhubaneswar.

AGENDA

TIME

2.10 PM

2.15 PM

2.30PM

4.45 PM

EVENTS

Welcome speech by Group Director

Profile of expert read by HOD,EE

Talk By Chandan Kumar Barik

Vote of Thanks by Prof HOD,EE

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

ABOUT EXPERT TALK:

Students gathered around 1:30 pm on 20th January, Monday for Industrial Expert Lecture. Talk initiated at 02:10am with an auspicious prayer. Dignitaries were welcomed to the dias.

A Welcome speech was given Group Director for motivating students to pursue careers in innovative tech industry .The Director also introduces the expert to the gatherings. After that HOD, EE read out the profile of the expert Mr. Chandan Kumar Barik .HOD, EE also invited the expert to start the session.

TECHNICAL SUMMARY:

- Mr Barick discussed that renewable resource is a resource which can be used repeatedly and replaced naturally. New resources may include goods or commodities such as paper and leather.
- Non-renewable energy comes from sources that will run out or will not be replenished in our lifetimes—or even in many, many lifetimes. Ex: Coal,Petrol,Diesel and Nuclear Energy.

Types of Solar Energy:

The Two Types of Solar Energy.

1. Photovoltaic technology directly converts sunlight into electricity.
2. Solar thermal technology harnesses its heat. These different technologies both tap the Sun's energy, locally and in large-scale solar farms. Solar thermal technology, which captures the sun's heat

Types of solar thermal systems:

Here are three primary solar thermal technologies based on three ways of concentrating solar energy: solar parabolic trough plants, solar tower power plants, and solar dish power plants. The mirrors used in these plants are normally constructed from glass, although other techniques are being explored.

Types of Solar Photovoltaic System:

- Solar off-grid system
- Solar On-grid System
- Solar Hybrid System

Advantages of Solar Offgrid,Solar Ongrid and Hybrid Systems.

Advantages :

Solar Ongrid Systems:

1. The grid system will allow us to have more savings because it is efficient. It offers net metering and it requires a low cost of equipment and installation. It does not require the use of batteries. which are usually expensive. Since there are no batteries, maintenance cost is very minimum. Overall the grid tied system is cheap to install and keep.

Solar offgrid systems:

1. A better option for homes with no access to the grid.
2. Our home becomes energy sufficient.

PARTICIPANTS

All the faculty members of RadhaKrishna Institute of Technology and Engineering .Also the lovely technocrats with their uniform participate in the Expert Talk.

OUTCOMES OF THE EXPERT TALK

- ❖ Learn about the technology behind the Renewable Energy system.
- ❖ Learn about the new technology of the of solar system system.
- ❖ Learn about the installation process of solar on-grid and off-grid system
- ❖ Learn about the technical modification of solar system.

PHOTOGRAPHS:

(Welcome speech by Group Director)

A handwritten signature in green ink, appearing to be 'S. S. S.', is written above the printed name of the Principal.

LIST OF FACULTY/RESOURCE PERSON

Sr. No.	Name and Address	Designation	Organisation
1	Dr. Kailash Chandra Nayak	Director	Seehurd
2	Mr. Saroj Kumar Nanda	Programme Director	Rainmakers Group
3	Mr. Arun Kumar Parija	Chief Trainer	Confidence Factory, Bhubaneswar
4	Prof. Manas Patnaik	Chairman	Enthem Global
5	Mr. P. C. Das	Ex-DGM	SAIL, Bokaro

ANNEXURE-IV

LIST OF INDUSTRIES VISITED

Sr. No.	Name, Address and Contact details	Product/ Services
1	Royal Habitat, Jatni Road, Gibindapur, Odisha, PIN-752054	Production of Mattresses

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

ANNEXURE – V

FEED BACK ANALYSIS OF PARTICIPANT – SUMMARY

Programme Location: **Radhakrishna Institute of Technology and Engineering, Bhubaneswar**

Date: From 21.01.2020 To 23.01.2020

Total No of Participants: **71**

Q.1) From where you got the information about this programme?

- | | |
|-----------------------------|--------------|
| a) Pamphlets / Broacher | 36 Nos.(50%) |
| b) News paper Advertisement | 24 Nos.(33%) |
| c) Posters/ Hand Bills | 11 Nos.(17%) |
| d) Other (Please Specify) | 00 Nos.(00%) |

Q.2) What is your opinion about the duration of Programme?

- | | |
|-------------|--------------|
| a) Short | 08 Nos.(11%) |
| b) Adequate | 51 Nos.(72%) |
| c) Long | 12 Nos.(17%) |

Q.3) Did you find the Programme useful?

- | | |
|-------------------|--------------|
| a) Very much | 61 Nos.(86%) |
| b) To some extent | 10 Nos.(14%) |
| c) Not useful | 00 Nos.(00%) |

Q.4) Did it fulfill your expectations?

- | | |
|-------------------|--------------|
| a) Yes | 67 Nos.(94%) |
| b) To some extent | 04 Nos.(6%) |
| c) No | 00 Nos.(00%) |

Q. 5) Planning of the Programme

- | | |
|-----------------|--------------|
| a) Excellent | 59 Nos.(83%) |
| b) Very good | 12 Nos.(17%) |
| c) Good | 00 Nos.(00%) |
| d) Satisfactory | 00 Nos.(00%) |
| e) Poor | 00 Nos.(00%) |

Report on One day Workshop on “Automotive Components & Engine overhauling in association with Yamaha”

Resource Person : Mr. Rakesh Kumar Patra (Skyy Rider)

Contact - 8249863356

On 29.01.2020

**Organised by
Department of Mechanical Engineering**

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

REPORT ON ONE DAY WORKSHOP**ON****“Automotive Components and Engine Overhauling in
Association with YAMAHA”****Background**

Skill is the unified force of experience, intellect and passion in their operation. Skill India portal was conceptualized to provide a collaboration platform to help empower all the stakeholders to freely connect with each other. The overall focus of this initiative is to help provide an engaging ecosystem to cater to skilling needs of citizens by publishing and sharing relevant information. Internal combustion engine is an engine in which the burning of a fuel occurs in a confined space called a combustion chamber. This exothermic reaction of a fuel with an oxidizer creates gases of high temperature and pressure, which are permitted to expand. The defining feature of an internal combustion engine is that useful work is performed by the expanding hot gases acting directly to cause movement, for example by acting on pistons, rotors, or even by pressing on and moving the entire engine itself.

This contrasts with external combustion engines, such as steam engines, which use the combustion process to heat a separate working fluid, typically water or steam, which then in turn does work, for example by pressing on a steam actuated piston.

Date and Venue

The training-workshop took place on 29th January 2020 at the Seminal Hall of RITE, Bhubaneswar. The training team arrived at the venue 10-00 AM, in order to meet for fine-tuning of the agenda and coordinate the workshop.

Training Team

The members of the training team of Mission Dream Skill India program organized by Skyy Rider Institutions. Mr. Rakesh Kumar Patra Senior Manager and Programme Coordinator of the

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

program of the Sky Rider Institutions were facilitation the workshop. Mr Rajat Mishra Senior Engineer and Production Engineer of YAMAHA training center demonstrates the live show of I.C. Engine Live Dismantling & Component Training.

AGENDA

<u>TIME</u>	<u>EVENTS</u>
10.15 AM	Inauguration
10.30 AM	Welcoming the Guests to the dais
11.00 AM	Guest Lecture on Automotive Components and Engine Overhauling
1.00 PM	Lunch Break
02.00 PM	Special Program by YAMAHA
04.30PM	Valedictory Ceremony
04.45 PM	Vote of Thanks by Prof. (Dr.) C.B.Malla

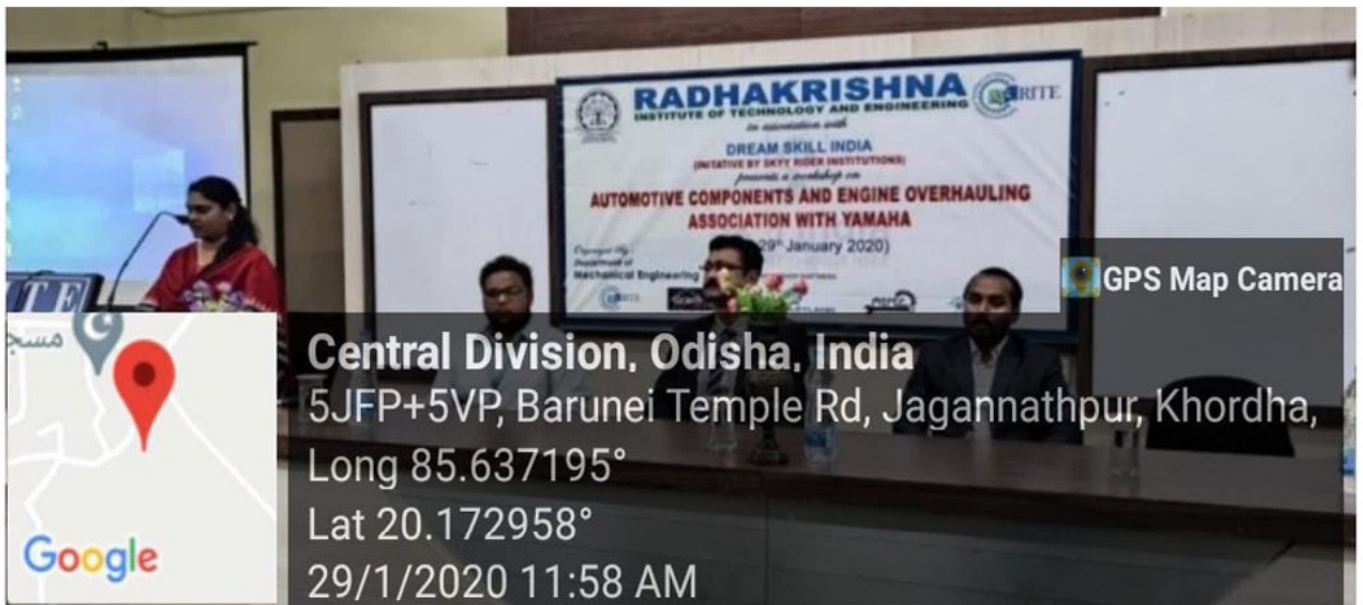

Participants

The training-workshop was attended by (Mechanical-47, Electrical-22) 69 students attend the wokshop to know about the hidden concept of I.C.engine component. Where the Mr Rajat Mishra trainers of YAMAHA and participants had a chance to disused about the component and function of four-stoke Petrol engine with live discussed about the theoretical and practical training from the workshop.

Report On

“THE FUTURE OF DRONES”

EXPERT : Mr. Minaketan Dash
CEO,UDR Technology
,Bhubaneswar
Contact : 7504272117

Date and Time: 12th February-2020, 02.00pm

Venue: RITE seminar hall

Duration: 3 hours

Faculty Co-ordinators:

Prof. Subash Ranjan Kabat (Head, EE Department)

Prof. Deepak Kumar Sahoo (Asst Professor, EE Department)

Prof. Chinmayee Mishra (Asst Professor, EE Department)

Prof. Surya Narayan Tripathy (Asst Professor, EE Department)

Total Number of Students: 38

.(21-Electrical Engineering,17-Mechanical Engineering)

TRAINING TEAM

The members of the training team of “**The Future of Drones**” organized by the faculty members of Electrical Engineering department, RITE, Bhubaneswar.

AGENDA

<u>TIME</u>	<u>EVENTS</u>
2.10 PM	Welcome speech by Group Director
2.15 PM	Profile of expert read by HOD,EE
2.30PM	Talk By Minaketan Dash
4.45 PM	Vote of Thanks by Prof P Das

ABOUT EXPERT TALK:

Students gathered around 1:30 pm on 12th February, Wednesday for Industrial Expert Lecture. Talk initiated at 02:10am with an auspicious prayer. Dignitaries were welcomed to the dias.

A Welcome speech was given HOD,EE for motivating students to pursue careers in innovative tech industry .along with HOD, EE read out the profile of the expert Mr. Minaketan Dash .Then HOD, EE also invited the expert to start the session.

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

TECHNICAL SUMMARY:

Mr Dash discussed that there are few pieces of technology that excite tech lovers and the general public quite like drones. These unmanned aerial marvels ignite the imaginations of people the world over — and the truth is that we are only scratching the surface of their potential. Rather than flying playthings, drone technology is being unlocked for practical uses in aerial data and information management.

While drones have been around for a few years, algorithms and programming are only just now starting to catch up to drone capabilities, presenting exciting possibilities — not only for the next 12 months, but the next decade.

A new eye in the sky

Drones by design allow researchers to take to the skies and capture visual information. With the right computing power and programming, this translates any landscape into a data point that can then be used in several ways. It's not all that new to pull information from the visual realm — in fact, this is already happening to a large degree when you look at image-based platforms where images and video are converted into 1s and 0s.

Drone technology, however, makes it easier to capture visual information, mine, and utilize data through enhanced computer models.

This repeated and ongoing visual access can be seen best in a case out of Canada, where unmanned aerial vehicles are monitoring vegetative health. As reported in October, several industry leaders completed a 4G proof-of-concept mission in Malagash, Nova Scotia, to demonstrate a real-world application of drone technology for a project called the "Digital Vineyard of the Future".

Global UAV Technologies provided a 4G-enabled, Procyon 800E helicopter drone platform with a specialized multi-spectral imaging payload. The company also provided pilots and engineering support for the project. As a result, the project produced diagnostic maps used by Jöst Vineyards for crop uniformity optimization, irrigation management, harvest planning and plant health information.

How Drone Technology Is Changing Industries

Drones are becoming commonplace in both the commercial and non-profits sectors. In the near future their use will be even more widespread.

Here are some of the many ways unmanned aircraft can revolutionize how we get things done. It's easy to see why drone degree programs, like Cal U's two-year associate's degree are more relevant than ever.

Agriculture: The Environmental Protection Agency already utilizes drones technology to manage livestock and survey crops. In the future farmers and ranchers could use unmanned aircraft to strategically monitor and spray their crops.

Conservation: Unmanned aircraft are being used to monitor endangered species and map the changes in various ecosystems around the globe. As drone technology advances, the use and impact of unmanned aircraft in conservation efforts will expand.

Delivery/fulfillment: Anything the postman can carry can also be delivered by drone. Food, prescriptions, that last-minute birthday gift for your dad—in the near future, there will be big changes in the way packages arrive to our doors.

Disaster mitigation and relief: Drones can go places that humans can't access, so they are an ideal solution for dangerous search and rescue efforts, as well as for delivering emergency supplies to remote locations and disaster areas.

Logistics: Heavy-duty drones can replace trucks for inventory management and moving goods between warehouses. This is likely to decrease the number of semis you see on the road.

Filmmaking and photography: Low-budget filmmakers are already using drones to capture the aerial shots and Hollywood will soon be hiring full crews of drone Unmanned aircraft are also gaining ground with photojournalists who want to capture breaking news from above.

ISPs: Big tech companies like Facebook and Google are experimenting with solar powered drone technology to beam Internet to remote locals. This could transform connectivity as we know it.

Law enforcement: In Seattle and Miami, police forces have already applied for permits to use drones, and we'll likely begin to see unmanned aircraft supplementing police presence at large public events.

Real Estate: Real Estate listings are poised to change completely with high-definition videos capture by drones that fly through neighborhoods, and into every room in a listed house.

“Drones” can be classified on a different basis – say based on ‘usage’ like Drones for Photography, Drones for aerial Mapping, Drones for Surveillance etc. However, the best classification of ‘Drones’ can be made on the basis of aerial platforms. Based on the type of aerial platform used, there are 4 major types of drones.

1. Multi Rotor Drones
2. Fixed Wing Drones
3. Single Rotor Helicopter
4. Fixed Wing Hybrid VTOL

PARTICIPANTS

All the faculty members of RadhaKrishna Institute of Technology and Engineering .Also the lovely technocrats with their uniform participate in the Expert Talk.

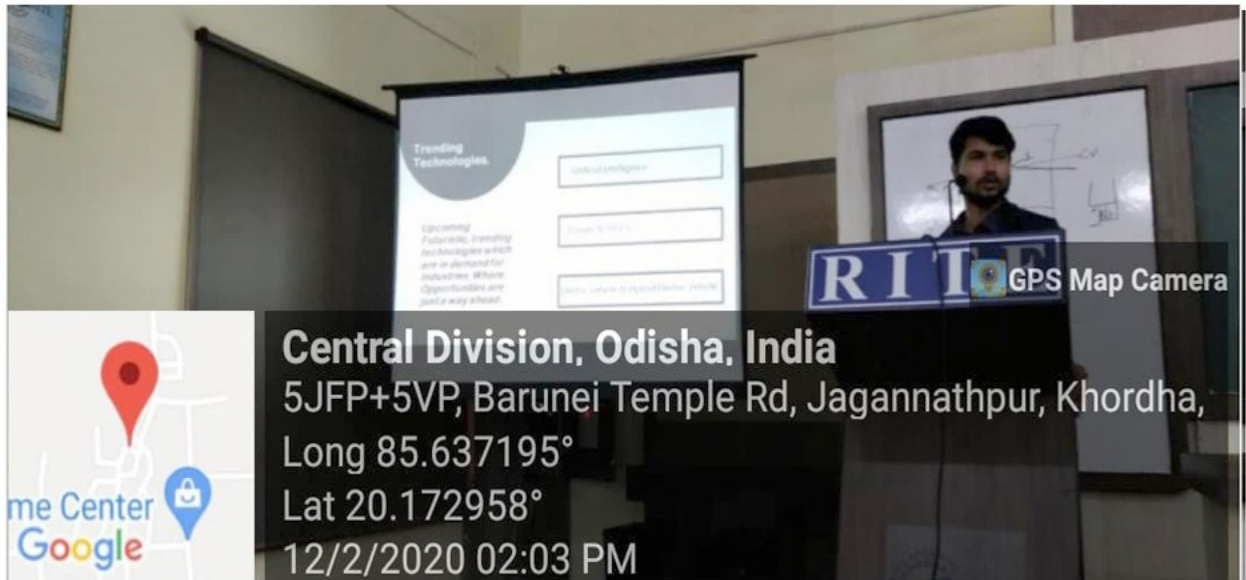

OUTCOMES OF THE EXPERT TALK

- ❖ Learn about the technology behind the Drone
- ❖ Learn about the Implementation of the drone technology.

Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

VALEDICTORY SESSION:

The expert talk was over at 4.45 pm. Then vote of thanks has been given by Prof. Priyadarshinee Das. After that the Director felicitated the expert. The Seminar on “Future of Drones” was completed at 5 pm.

REPORT PREPARED BY:

Prof Subash Ranjan Kabat
HOD, EE

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

One-day Seminar Report
On

“An Introduction to Machine Learning and
Data Science”

Held on: 27th May 2020

Organized by:
**RITE Wizard and Department of Computer Science and
Engineering, RITE, BHUBANESWAR.**

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

Index:

- Key Takeaways
- Organization Committee
- Brochure of the Event
- Schedule of the Event
- Brief Profile of the Speaker
- List of Participation
- Pictures of the Event

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

Key Takeaways:

- ❖ What is AI and ML?
- ❖ Hands-on in Pandas, Numpy, Matplotlib, Seaborn
- ❖ Supervised Machine Learning in detail
- ❖ Regression and Classification
- ❖ Linear Regression and Capstone Project
- ❖ What is Data Science?
- ❖ Data Science Life Cycle
- ❖ Emerging Technology

Venue: Seminar Hall

Target audience: B. Tech Students, All Faculty Members

and Engineering, Bhubaneswar

Trilochan Tarai, popularly known as Silu, is an expert in JAVA & Python Programming. He is an industry veteran with 14+ yrs of experience in the field of software training & development. An ex-TCS Technical lead, he has also served as Assistant Professor, Associate Professor, & HOD in many engineering college under BPUT. For his dedicated contribution towards technologies, he has received Odisha Young Technocrat Award. Trilochan Tarai is also a J2EE and Data Science consultant and has designed and developed various software applications for leading IT Companies. He is a leading author on Java and Python technology visible in nationally and internationally. He has a B.Tech Degree in Information Technology from College of Engineering, Bhubaneswar under BPUT and M.Tech in Computer Science & Engineering from Centurion University of Technology & Management, Odisha.
