About the College:

The Radhakrishna Institute of Technology and Engineering (RITE) is a JRG Educational Trust initiative. The trust takes its roots from the life and philosophy of noted social worker and philanthropist Shri Jagdish Raiji Gupta. The objective of the trust has been to impart education to all strata of the Indian society and to equate the Indian educated youth with the heights scaled by their counterparts abroad. Apart from the primary objective, the group continues to bear the beacon of social upliftment of the backward sections of the Indian society. The trust is a home to a host of eminent members of the Indian intelligentsia which comprises of the five founder members. Founder members Mr. Adi Narayan Gupta, Mr. Vineet M. Gupta, Mr. Jitendra Mohan Gupta, Mr. Abhisekh Gupta and Mr. Harsh Mohan Gupta are the pillars of strength, resource and support on which the trust functions.

The only institute which provides hands-on training to churn out industry-ready professionals. Meticulously chosen faculties, state-of-the-art infrastructure and strategic placement partners. Placements are assured by host of reputed promoters, supported by the team of trustees and industrial tie ups. Academic tie ups are with the most prominent companies such as, HCL, CADD Center and JCLE & CISCO. Strategically located at the education hub of Bhubaneswar which is the capital city of the state of Odisha.

About the Department

The Department of Computer Science & Engineering is committed to nurturing competent professionals, innovators, and researchers capable of addressing the challenges of the rapidly evolving digital world. Established with the vision of providing quality technical education, the department offers a strong academic foundation in computer science, software engineering, artificial intelligence, data analytics, cloud computing, cybersecurity, and emerging technologies.

The department provides a student-centric learning environment supported by qualified faculty members and industry-oriented training programs. Through project-based learning, technical workshops, coding competitions, seminars, internships, and research activities, students are encouraged to develop problem-solving abilities, innovation, and entrepreneurial skills. The Department focuses on bridging the gap between academic knowledge and industry requirements.

The department actively promotes participation in technical events, faculty development programs, industry interactions, and collaborative learning initiatives. The Department of Computer Science & Engineering strives to produce skilled engineers and responsible citizens who contribute effectively to society, industry, and technological advancement. The department continues to foster an ecosystem that encourages academic excellence, research, innovation, and holistic personality development.
