- B. Any 3 of the above
- C. Any 2 of the above
- D. Any 1 of the above
- E. None of the above

Answer:

- A. 4 or All of the above

# SCREEN READER

Name of the software: - NVDA (Non-Visual Desktop Access) for Windows Screen reader is an assistive software programme, which helps the visually impaired, or the blind to work with computer. The Non Visual Desktop Access (NVDA) is free; open-source software. It is installed in the computers at CENTRAL LIBRARY to help the visually challenged students in learning.

The image shows a screenshot of the NVDA website and its welcome dialog box. The website header includes the NV Access logo with the tagline "Empowering lives through non-visual access to technology" and a "DONATE" button. The navigation menu contains links for Home, About, Download, Get Help, Corporate / Government, News, Support Us, and Shop. A large banner features the text "DOWNLOAD and experience NVDA TODAY!" over a background image of hands typing on a laptop. Below the banner is a "Welcome to NVDA" dialog box with the following content:

**Welcome to NVDA!**

Most commands for controlling NVDA require you to hold down the NVDA key while pressing other keys. By default, the numpad Insert and main Insert keys may both be used as the NVDA key. You can also configure NVDA to use the CapsLock as the NVDA key. Press NVDA+n at any time to activate the NVDA menu. From this menu, you can configure NVDA, get help and access other NVDA functions.

Options

Keyboard layout:  ▼

- Use CapsLock as an NVDA modifier key
- Start NVDA after I sign in
- Show this dialog when NVDA starts

OK
