

## About the College

The Radhakrishna Institute of Technology and Engineering (RITE) is a JRG Educational Trust initiative. The trust takes its roots from the life and philosophy of noted social worker and philanthropist Shri Jagdish Rai Ji Gupta. The objective of the trust has been to impart education to all strata of the Indian society and to equate the Indian educated youth with the heights scaled by their counterparts abroad. Apart from this primary objective, the group continues to bear the beacon of social upliftment of the backward sections of the Indian society. The trust is home to a host of eminent members of the Indian intelligentsia which comprise the five founder members.

## About the Course

This add-on certification course will cover the basic concepts in Project Planning and Control with a focus on construction projects. The course is relevant to Civil Engineering students in the area of construction management. Project management provides organizations (and individuals) with the language and the

frameworks for scoping projects, sequencing activities, utilizing resources, and minimizing risks.

## Outcomes of Course

By the end of this course, participants will be able to have:

- in-depth knowledge and information related to project planning and control
- the required skills to devise a project plan/strategy to determine the path/trajectory of the project
- adequate analytical and strategic skills to align project outcome and objectives to organisational strategy, thereby contributing to organisational growth
- confidence and knowledge to train peers in the organisation for effective project planning and control
- the required awareness and foresight to predict risks and challenges and put in place corrective actions to eliminate or minimise the negative impact on the project outcome
