Background:

Drushti daan has been active for past several years in spearheading eye-banking movement in the state of Orissa. It has been our constant endeavor to further improve our performance both qualitatively and quantitatively and we have been committed to developing a Community Eye Bank in the state of Orissa.

The Procedure for Eye Donation is actually divided into 3 parts.

- Pledging of eyes by the prospective donor. This is preferred but not necessary.
- Consent of the next of kin to donate after the death of the individual
- Calling the Eye Bank to retrieve the eye of the deceased and implementing the directions of the Eye Bank to help keep the corneas in a good condition till their arrival.

The eye Bank team arrives and within approximately 30 minutes the cornea is harvested, stored in a preservative medium and taken immediately to the Eye Bank. Here the cornea is tested, evaluated and distributed as per rules laid down by the Eye Bank Association of India.

The Donor:

- The most important action you can take to ensure you will be a donor is to tell your family and legal representative. It is helpful if they know how you feel in advance.
- Keep a donor card with you at all times so it will serve as an indication to your family, your legal representative and hospitals of your intention to be an eye donor.

The Donor's Relatives:

- The Donors relatives have the authority and moral responsibility to donate the eyes of the deceased, especially if the donor expressed his desire during his/her lifetime
- Get the family to consent for eye donation.

IMPORTANT STEPS BEFORE EYE DONATION:

- Get the valid death certificate quickly.
- Contact the eye bank as soon as possible.
- Close the eyelids and cover it with moist cotton and keep it moist till the eye bank team arrives
- Switch off the fan (Switch on the air conditioner if possible).
- Raise the donor's head by 6 inches by placing two pillows under it.
- Keep the consent of the family members of the deceased donor ready, as it is mandatory

Description:

The youth club, Young Tarang and IQAC, RITE in association with YI had arranged an awareness campaign on Cervical Cancer on 24.01.2020 at 3.00PM. in seminar hall. Dr. M.K Das of AMRI hospital discussed in details how cervical cancer can be prevented and what care one should take.

The students actively interacted with the Speaker. They asked many questions and Dr. Das answered their questions and cleared their doubts. It was very informative and useful for all of us.

& Engineering, Bhubaneswar

Background:

The institute has put in consistent endeavors in deftly carrying out social responsibilities which prove beneficial to mankind at large. One such activity is the Blood Donation Camps organized by the institute. The camp serves multiple purposes for students and faculty involved.

1. **The Need for the Camp:** The purpose of education is not just making job ready students, rather it is to inculcate an unflinching sense of social welfare. The students at the institute learn this value by contributing to the social cause.
2. **The Contributors:** The activity is a centrally driven initiative that invites participation from faculty, students, administration and management.
3. **The Planning and Execution:** The delegation of responsibility flows from the apex members to student volunteers. The administration appoints one chief coordinator who builds his or her own team consisting of members of faculty and staff. A grand team of student coordinators and volunteers is also constituted for the field work. The institute has been successful in donating about 62 (approx.) of blood the blood bank every year.
4. **The Celebration:** The event begins with a grand inaugural ceremony organized by the cultural team. The day begins with a formal inauguration which hosts dignitaries from top-notch medical representatives. Eminent doctors and administrators from the health department participate as the distinguished guests to motivate the gathering.
5. **Skills learnt-** The event has been proved to be a milestone in shaping the personality of the students involved. Every engineer is expected to be trained in soft skills as well as the technical field that he or she belongs to. The students learn the essential tenets of teamwork, leadership, conflict resolution, decision making and many more.

Conclusion: The activity is a perfect example of working together for the social cause. Countless people have been benefitted over these years and the institute feels humbled to have helped them.

Preamble: The first record of the voluntary blood donation initiative in India is noted in 1942, at the time of World War II and the first blood bank was established in Kolkata, West Bengal. The blood bank was set up at that time to fulfill the blood needs of those injured in the battle field. Government employees and industrial houses volunteered to donate blood for this humanitarian cause. Once the war ended, the enthusiasm waned and blood bank collections were largely from professional or the paid blood donors. A decade passed by till Mrs. Leela Moolgaokar initiated voluntary blood donation drive in Bombay (now Mumbai) from 1954 onwards. She was inspired by the blood need of her injured son. In 1971, Prof. J.G. Jolly the founder President of the Indian Society of Blood Transfusion and Immunohematology took the movement to further heights and the Society under his stewardship declared October 1 as National Voluntary Blood Donation Day which was later accepted by the government too. Since then many blood donor organizations came up in different regions of the country in support of the noble cause of voluntary blood donation. The National Blood Policy (2002) and an Action Plan for Blood Safety (2003) were adopted by the Government of India. The NBTC (National Blood Transfusion Council) was entrusted with planning a national campaign.

There are four main blood types: A, B, AB and O. In 1901, Karl Landsteiner, an Austrian physician, discovers the first three human blood groups. On his birthday June 14th "World Blood Donors Day" is celebrated.

Radhakrishna Institute of Technology and Engineering has always been engaged in the activities of human concern and societal & environmental development. We have been organizing Blood donation camps since long time. Voluntary Blood Donation Camp was organized on **02.11.2019**

Blood Donation Camp on 02.11.2019

RITE has always shown its kind gesture for the service of humanity and environment. Blood donation camps, Tree plantations, Awareness campaigns, Marathons, Spiritual lectures, Human values workshops, Medical Camps, Gramothan related other activities etc are being organized by our institute on regular basis.

On this day 30 units of blood was collected. Some events for awareness and motivation were held before the blood donation. Pre and post refreshments were provided to the students. All the willing blood donors were first of all checked by doctors for their health conditions. Some basic blood tests were also done as prescribed. After donating the blood, the donors were taken care. First time donors, 1st year students who were not 18 years and other students celebrated the blood donation by cutting the cake. There is large no of faculty members who are regular blood donors.

Background:

The institute has put in consistent endeavors in deftly carrying out social responsibilities which prove beneficial to mankind at large. One such activity is the Blood Donation Camps organized by the institute. The camp serves multiple purposes for students and faculty involved.

1. **The Need for the Camp:** The purpose of education is not just making job ready students, rather it is to inculcate an unflinching sense of social welfare. The students at the institute learn this value by contributing to the social cause.
2. **The Contributors:** The activity is a centrally driven initiative that invites participation from faculty, students, administration and management.
3. **The Planning and Execution:** The delegation of responsibility flows from the apex members to student volunteers. The administration appoints one chief coordinator who builds his or her own team consisting of members of faculty and staff. A grand team of student coordinators and volunteers is also constituted for the field work. The institute has been successful in donating about 62 (approx.) of blood to the blood bank every year.
4. **The Celebration:** The event begins with a grand inaugural ceremony organized by the cultural team. The day begins with a formal inauguration which hosts dignitaries from top-notch medical representatives. Eminent doctors and administrators from the health department participate as the distinguished guests to motivate the gathering.
5. **Skills learnt-** The event has been proved to be a milestone in shaping the personality of the students involved. Every engineer is expected to be trained in soft skills as well as the technical field that he or she belongs to. The students learn the essential tenets of teamwork, leadership, conflict resolution, decision making and many more.

Conclusion: The activity is a perfect example of working together for the social cause. Countless people have been benefitted over these years and the institute feels humbled to have helped them.

Description:

Rite in association with YI arranged Uttarayan KITE FEST on 15th January at Marine Drive Eco Retreat. It was organized to promote awareness on the Jagannath Culture of Uttarayana Celebration among the youth of the state. On that day students from the YUVA CHAUPAL of RITE and other students from 2nd, 3rd and 4th year went to participated in the event. Student welfare officer Dr. Monika Sarkar accompanied the students.

The students were divided into different groups and provided with materials to make the kites. Colorful designed kites were made by our students and finally they were allowed to fly the same kite in the beach. Our students enjoyed a lot and did lots of fun during the event. The students were more encouraged due to presence of our Chainman, V.Gupta Sir and Rashmi Madam. The evening became more beautiful due to LED KITE show followed by cultural programmes.

Background:

Copyrights protect a creator's work from unauthorized duplication or use. Through the Copyright Act Public Performance, nobody can copy, imitate, or produce another work if work gets protected by Copyright Registration. This article explains the importance of copyright.

Copyright is a collection of rights available to the creator of an original literary, dramatic, artistic, or musical work who has spent his time and effort in creating it, to protect them against theft and unauthorized uses. Such rights include the right to reproduce, to prepare derivative works, to distribute copies, and perform and display the work publicly. The provisions related to copyright in India are given under the Copyright Act, 1957. The main aim of copyright is to encourage and provide an incentive to the authors or creators to make or create new works. These works are available for the public to enjoy according to the will of the author or owner of the copyright. The copyright of any work provides benefits both to the author or creator as well as the public. The author receives economic rewards for creating such work and the public gets the work in the form of literature, drama, art, or music. Through the registration of a copyright, the author or creator can claim over his work to protect their work from theft or piracy. So, copyright registration provides protection from theft and also rewards the author for his work.

Mr. Nityananda Pradhan

Advocate, Khordha

Dear Principal,

Radhakrishna Institute of Technology and Engineering

IDCO Plot No-1, Khordha Industrial Estate, Bhubaneswar

I am writing to express my sincerest appreciation to you and your team for inviting me to speak about **"Importance of Copyright Law in India"** to your students on **07.01.2020**. It was an honour and privilege to be given the opportunity to share my experience and knowledge with the students of your esteemed college.

The experience of speaking to your students was truly rewarding for me. The level of engagement and interaction from the students was outstanding, and I greatly enjoyed the insightful questions and comments that were raised during the session. The enthusiasm and interest displayed by the students are a testament to the quality of education provided by your college.

I commend your college for its commitment to providing a well-rounded education to its students. The opportunity to speak at your college allowed me to contribute to this mission and promote education, particularly in the field of law. I'm sure the students have benefitted greatly from the discussion, and I hope that the information I shared motivated them to achieve their goals.

Once again, thank you for giving me this opportunity to speak to your students. It was a memorable experience for me, and I'm glad I could contribute to your stellar program. I look forward to collaborating with you and the college in the future.

Sincerely,

Nityananda Pradhan

Background:

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect. There are many types of intellectual property, and some countries recognize more than others. The best-known types are patents, copyrights, trademarks, and trade secrets. The modern concept of intellectual property developed in England in the 17th and 18th centuries. The term "intellectual property" began to be used in the 19th century, though it was not until the late 20th century that intellectual property became commonplace in most of the world's legal systems.

Supporters of intellectual property laws often describe their main purpose as encouraging the creation of a wide variety of intellectual goods. To achieve this, the law gives people and businesses property rights to certain information and intellectual goods they create, usually for a limited period of time. Supporters argue that because IP laws allow people to protect their original ideas and prevent unauthorized copying, creators derive greater individual economic benefit from the information and intellectual goods they create, and thus have more economic incentives to create them in the first place. Advocates of IP believe that these economic incentives and legal protections stimulate innovation and contribute to technological progress of certain kinds.

The intangible nature of intellectual property presents difficulties when compared with traditional property like land or goods. Unlike traditional property, intellectual property is "indivisible", since an unlimited number of people can in theory "consume" an intellectual good without its being depleted. Additionally, investments in intellectual goods suffer from appropriation problems:

Background:

We all deal with stress on a daily basis, whether we're old or young, large or small, lofty thinkers or practical doers.

Even the most practiced meditator and the yogi who radiates peace experience this inevitable aspect of the human experience.

Symptoms of Stress

Stress can produce the following symptoms:

- Low energy;
- Headaches;
- Upset stomach, including diarrhea, constipation, and nausea;
- Aches, pains, and tense muscles;
- Chest pain and rapid heartbeat;
- Insomnia;
- Frequent colds and infections;
- Loss of sexual desire and/or ability.

Beyond these physical symptoms, stress can also have a big impact on your emotions and general mood.

Few of the mental or emotional symptoms of mounting stress:

- Difficulty concentrating, racing thoughts;
- Trouble learning new information;
- Forgetfulness, disorganization, confusion;
- Difficulty in making decisions;
- Feeling overloaded or overwhelmed;
- Frequent crying spells or suicidal thoughts;
- Feelings of loneliness or worthlessness;
- Little interest in appearance, punctuality;
- Nervous habits, fidgeting, feet tapping;
- Increased frustration, irritability, edginess;
- Overreaction to petty annoyances.

Background:

Key diet and exercise learning points:

- What are the consequences of a poor diet and physical inactivity?
- When to provide healthy eating and exercise advice
- How to give structured and effective advice to promote positive and sustained behavior change?

Eating a healthy balanced diet accompanied by regular exercise is essential in maintaining physical and mental health and well-being. Not only are these effective in preventing excess weight gain or in maintaining weight loss, but healthier lifestyles are also associated with improved sleep and mood. Physical activity particularly improves brain-related function and outcomes.

According to the latest diet surveys, children and teenagers consume around 40% more added sugar than the recommended daily allowance; much of this coming from snacks and sweets. We are now seeing type 2 diabetes, hypertension, early markers of heart disease, breathing difficulties, increased risk of fractures and psychological effects in young children.

The Principal,

Radhakrishna Institute of Technology and Engineering

Khurda, Bhubaneswar, Odisha

I got to know about the Awareness programme on "Significance of healthy diet & Exercise in everyday life" on dated 20th Sept. 2019 being conducted by Radhakrishna Institute of Technology and Engineering, Khurda, Bhubaneswar, Odisha for the students of the current academic session. I was given the invitation to participate in the event as a Chief Guest and deliver the keynote on my area of expertise of balance diet towards leading a healthy lifestyle. It was a surprising experience for me to observe that upcoming generation of professionals are very much interested in making themselves aware of the healthy eating habits towards the accomplishment of leading a stress-free life and in tandem achieving their academic goals. I believe and wish a healthy and prosperous times ahead for the RITE family.

ANNEXURE- II
PROGRAMME SCHEDULE

Date and Day	Session	Subject/ Topic	Faculty
21/01/20 1 st Day	I	Objective and Description of Entrepreneurship. Historical background Indian values vis-a-vis Entrepreneurship and the present scenario	Dr. Kailash Chandra Nayak Director, Seehurd
	II	Identification of opportunities for entrepreneurs	Mr. Saroj Kumar Nanda Programme Director, Rainmakers Group
	III	Communication skill developments	Mr. Arun Kumar Parija Chief Trainer, Confidence Factory, Bhubaneswar
22/01/20 2 nd Day	I	The objective of this session is to sensitize about how to find new ideas and convert them into useful business concepts. It will cover importance of innovative solutions which have changed the way world moves. It will also share about various modes of availing funding for new ideas	Prof. Manas Patnaik Chairman, Enthem Global
	II	The objective of this session will be to impart training on how to assess market feasibility of the given idea. It will mainly cover four major areas of marketing known as 4 Ps Product, Price, Place and Promotion. It will teach students how to prepare a strategy on market opportunity	Mr. P. C. Das, Ex-DGM, SAIL, Bokaro
	III	It will mainly cover importance of costing, how to prepare budget,	Mr. P. C. Das, Ex-DGM, SAIL, Bokaro

Handwritten signature in green ink.

ANNEXURE – V

FEED BACK ANALYSIS OF PARTICIPANT – SUMMARY

Programme Location: **Radhakrishna Institute of Technology and Engineering, Bhubaneswar**

Date: From 21.01.2020 To 23.01.2020

Total No of Participants: **71**

Q.1) From where you got the information about this programme?

- | | |
|-----------------------------|--------------|
| a) Pamphlets / Broacher | 36 Nos.(50%) |
| b) News paper Advertisement | 24 Nos.(33%) |
| c) Posters/ Hand Bills | 11 Nos.(17%) |
| d) Other (Please Specify) | 00 Nos.(00%) |

Q.2) What is your opinion about the duration of Programme?

- | | |
|-------------|--------------|
| a) Short | 08 Nos.(11%) |
| b) Adequate | 51 Nos.(72%) |
| c) Long | 12 Nos.(17%) |

Q.3) Did you find the Programme useful?

- | | |
|-------------------|--------------|
| a) Very much | 61 Nos.(86%) |
| b) To some extent | 10 Nos.(14%) |
| c) Not useful | 00 Nos.(00%) |

Q.4) Did it fulfill your expectations?

- | | |
|-------------------|--------------|
| a) Yes | 67 Nos.(94%) |
| b) To some extent | 04 Nos.(6%) |
| c) No | 00 Nos.(00%) |

Q.5) Planning of the Programme

- | | |
|-----------------|--------------|
| a) Excellent | 59 Nos.(83%) |
| b) Very good | 12 Nos.(17%) |
| c) Good | 00 Nos.(00%) |
| d) Satisfactory | 00 Nos.(00%) |
| e) Poor | 00 Nos.(00%) |

Report
On
**“Industrial Visit to Nava
Bharat Ventures Ltd”**

Held on 11th January 2020

Organized by
Mechanical Engineering and Electrical Engineering in
Association with IQAC-RITE, Bhubaneswar, Odisha

Principal
Radhakrishna Institute of Technology
and Engineering, Bhubaneswar

Faculty Coordinator:

Prof. Amit Jain Biswal (Assistant Professor , ME)

Prof . Surya Narayan Tripathi (Assistant Professor, EE)

Participants: 40

OVERVIEW OF THE TRIP :

RITE has organized an industrial visit on 11th Jan 2020 to NAVA BHARATA VENTURES LTD. Located in Industrial sector of Kharagprasad, Dhenkanal, Odisha. For the students of Mechanical and electrical engineering from 3rd and 2nd year.

The visit was put in order by the authorization of our Hon' Director

Capt.K. N. Venkatesh .

Dr. Chandrabhanu Malla (HOD,Dept ME)

Prof. Subash Ranjan Kabat (HOD .Dept.EEE)

DETAILS OF OUR EXPEDITION

- We starts our journey from the *college campus* at 6.00 am via our college bus on 11th Jan 2020 along with our two faculties.
- We arrived at 10.30 am on the premices of *Nava bharatv ventures ltd.*
- Then we had all the formalities at the entry piont and get provided with safety Helments from the gate
- One of their employee breif us about that day activities.

Right after the time of entry one of their senior employee (engineer) guide us about the safety rules and fortunatelu on that day we had a promice for road safety along with them which main agenda to minimise accident rates.

Then one of thei production engineer gives us the idea about the different section of the industry, and by making us understand about the raw materials, process adopted for obtaining the final product took us to the following area

Raw material section :

The raw materialspecialy used in this particular process plant is **chromite ore**. (source : sukinda, Jaipur)

Bricket store house

In this we found and learn the compositions ands abrief idea about the step by step process of this industry. This is comprises of :-

(Chomite ore (92%) + coke + Flux (Magnesite) + Molases (5%) + Lime(3%) = final product).

Principal
Radhakrishna Institute of Technology
& Engineering, Bhubaneswar

Workshop overview

As per the process plant requirement there are two special workshops

Electrical Workshop

Mechanical Workshop

Out of these two we have first out for Electrical workshop which accommodates the various capacity of spare Motors and one under maintenance circuit board. Among those the highest capacity motor is of **450kw**. There we have taught for safety practice and a little bit of motor principles by an sterling Electrical Engineer.

Secondly the Mechanical workshop where a 10" specified Turning four jaw lathe was the point of attraction, with some spare parts.

Furnace

As we have discussed the process view earlier accordingly a major part of operation is liquification the metal what is being carried out in this section where we have ideated about the practical overview of our practiced theory as per our semester paper, which was one of the exciting chapter of our visit.

That is the last most part of visit session, as per time is concern and for the sake of safety issue as per their advice we did not out for the "Submerged Earth furnace".

Brief history of industry:

This industry was developed by Dr. D.Subba Rao and Sri P.Punnaiah & Sri A.S Chowdhri in 1972, it was commenced operation in 1975 with mfg of Ferro Silicon at Paloncha also in present Telengana

This is now a Multi national Company operating in South east Asia and Africa ,Singapore, Zambia . having a 12 years of back to back success story.

Students Feedback:

We the students of dept of ME and EE want to deliver our special thanks , and obsequious gratitude for this kind of explore and this exceptional *field day* ,to uor Hon' Director sir, Princial Sir,HOD ME,and HOD EEE for their *graciuos intrest in this auspicious accademical intrest* ,and a *effusive thanks to our Amit sir and Surya sir for guiding us in this very tour and thanks to the industry authority and the personnel we have meet at the time of visit.*

A BRIEF DESCRIPTION OF THE INDUSTRIAL VISIT TO IDCO, BBSR

The Department of Training and Development in association with the Department of Civil Engineering Radhakrishna Institute of Technology & Engineering, Bhubaneswar organized one day Industrial Visit to “**ROYAL HABITAT**”, **Jatni Bhubaneswar on Dt: 27/02/2020** for all the 2nd year students as per letter no:- Ref No. RITE CIVIL/2019-20/22.

The visit was organized with the prior permission of The Principal, RITE. Head of the Department of CE and T & P. Prof. Shibani Hota, Prof. Sushree Manisha Samanta (**Civil department**) RITE accompanied the students for this industrial visit. Total 10 students (4th sem, 2nd year) had joined this industrial visit. At the site, the team was guided by their HR Team & Engineers. “**ROYAL HABITAT**” who provided brief description about design and planning of the apartment, casting of beam and columns, compaction of concrete and plastering. They guided about architectural plan, flooring, playground, swimming pool, lawn, gym at the ROYAL HABITAT. Accessibility to key landmarks, strategically located schools, hospitals, restaurants, banks for public entertainment and need.

Location:

The “**ROYAL HABITAT**”, **Jatni Bhubaneswar** is situated at the 5PV2+RGH, Jatni Rd, Gobindapur, Odisha 752054, which is about 9.8 kms away from our institute.

Details of the journey:

We started traveling from RITE campus to “**ROYAL HABITAT**” at 2:15 PM from our institute by bus on 27/02/2020. We reached the “**ROYAL HABITAT**” at 2:35 PM. As soon as we reached their security officer had taken the signature. After that we were enter into the apartment we meet with their Engineer & HR team. We are guided by our teachers Prof. Sushree manisha Samanta, Prof. Shibani Hota. First we all were guided to keep safety and then we went to building campus and saw the construction of the building and also they show us the demo how the actual works take place. We were headed by site engineer who helped us to know how the apartment is systematically planed and design. After getting all idea about planning and design of the apartment and we showed our appreciation to their engineers and finally we thanking to all whom we met there we took leave at 4:00 pm. We took snacks while returning from ROYAL HABITAT. We reached our institution Campus at 4:30 pm.

Principal

(BPUT affiliated, AICTE approved & NAAC accredited)

Feedback from students:

The students of have enjoyed the tour endeavor at **“ROYAL HABITAT”**, **Jatni Bhubaneswar**. This Visit seems to be very informative and gives good learning experience. Students were well mannered and disciplined throughout the visit and no injury or anything bad happened during the industrial visit.

All the students are extremely thankful to honorable Management Committee, Principal Prof. Shasank Sekhar Kanungo, HOD CE Prof Debasree and T&P Mr. Amit Tripathy and also to Prof. Sushree manisha Samanta, Prof. Shibani Hota for organizing and guiding the students for the above said Industrial visit.

Objectives:

1. To interact with Industry Experts.
2. To learn from experienced personnel.
3. To enhance employability.
4. To learn Technical Lessons.
5. To enhance Interpersonal skills.

Learning outcomes:

- Industry visits fill up the bridge gap between theoretical training and practical learning in a real-life environment.
- It provides opportunity for active/interactive learning experiences in-class as well outside the classroom environment.
- With industry visits, students are able to better identify their prospective areas of work in the overall organizational function.
- Industry visits help enhance interpersonal and communications.
- Students become more aware of industry practices and regulations during industry visits.
